

25mm Chaser Chisel

Made from high density nylon, lightweight but extremely strong and shock resistant, this chaser chisel is 300mm long allowing for greater access and long reach repairs. The chisel head can be reshaped and dressed with a sander or file to suit various panel repairs.

Additional Information

- 25 x 300mm chaser chisel for long reach repair.
- Lightweight, ultra-strong & shock resistant, minimising panel marking.
- Manufactured from high density nylon.
- Made in Sheffield.
- Also available in a set, please see Part No. 91946.
