

Deep Reach Hole Punch

Use to create a 7mm diameter hole in sheet metal, ideal for wings or channel sections where a lip is obstructing access.

Additional Information

- Punch plier tool to easily create 7mm diameter holes.
- Variable depth setting allows standard use, as well as where obstructions are present (such as lips).
- Manufactured from low carbon steel (ST.37) with a painted finish & rubber handles.
- Other punches available in the Power-TEC range - Countersink Punch (Part Number: 91954), Flanger & Hole Punch (Part Number 91334).
