

Safety Cable

To help avoid accidents always use a safety strap or cable when using pulling clamps. Attach one end of the cable onto a clamp and the other end to the vehicle.

Additional Information

- Length: 2m.
- Steel wire with snap hooks at either end.
- Attach to pulling clamp & vehicle to avoid accidents.
- Works with the Power-TEC clamps range.
- Safety Sling Strap also available, please See Part No. 91094.
