

Pull Strap Kit 4pc

Avoid risk of damage during heavy pulls. Chains mark metal and cause more damage, often to mechanical and interior parts. Body straps cause no damage and can be used in a variety of pulling situations, often where conventional methods will not work.

Additional Information

- Kit contains: 1 x 2m strap with 3 tonne breaking load. WLL 3/4 tonne (Working Load Limit) 25mm wide. Designed for pulling and anchoring parts where access is limited, Part No. 91091.
