

Chisel Metaplas Kit

Lightweight and strong chisel set ideal for thin panels and aluminium. The chisel heads can be reshaped and dressed with a sander or file to suit various panel repairs.

Additional Information

- Set includes: bull nose, flat nose, round nose & chaser.
- Manufactured from high density nylon - lightweight and ultra strong.
- Shock resistant for operator.
- Minimises panel marking.
- Also available individually, please see Part No. 91226 (bull nose), 91227 (flat nose), 91228 (round nose) and 91229 (chaser).
