

Wheel Arch Reforming Tool

This specialist tool bolts onto the hub flange and can be used to repair wheel arch collision damage, or to flare arches and increase tyre clearance when a larger profile wheel or tyre has been fitted to a vehicle. It features a fully adjustable telescopic arm, and the hub adaptor plate has elongated holes allowing it to fit 4 and 5 bolt hubs.

Additional Information

- Repairs wheel arch collision damage.
- Can be used for flaring wheel arches. Prevents tyre rub.
- Bolts on to the hub flange.
- Manufactured from Carbon steel. with a powder coated finish.
- Suitable for vehicles with 4 and 5 bolt hubs.
