

Shim-Masks 3pc

Used by professional painters and varnishers, SMART and spot repairers, and vehicle refinishers. Protects surrounding paint while runs or imperfections are removed with either a razor blade or sanding block.

Additional Information

- Minimising area when sanding paint filled chips or scratches.
- Chemical etching of shapes means no burring of edges giving a perfectly flat finish.
- Choice of four stencil shapes allows different jobs to be tackled with the same tool.
- Manufactured from Stainless Steel 304, which enables them to be reused.
- Patented product.
