

Scangrip Sunmatch 4 Re-Chargeable Hand Lamp

Lighting solutions for the automotive painting industry.

Scangrip Colour Match lighting solutions are specially designed for the automotive painting industry, and are made for colour matching, detailing and general paint work and are usable everywhere a painted surface needs inspection.

The COB (chip on board) LED technology provides a unique, uniform and completely even illumination with only one shadow which makes it particularly effective for detailing and colour matching light. The colour temperature (KELVIN) exactly fits the specific requirements for efficient work light in the automotive painting industry. The newly invented CCT SCAN functionality offers the option to scan the surface of an object with the various colour temperatures available in the interval from 2500K to 6500K. CCT SCAN functionality provides optimum conditions for the most accurate colour match and highlighting and discovering paint defects. 03.5657 Scangrip Sunmatch 4 Re-Chargeable Hand Lamp

Rechargeable work light with 500 lumen and CCT SCAN function

Handheld rechargeable work light with high CRI+ LED and excellent colour rendering properties, for perfect colour matching.

By activating the CCT SCAN function, the work light will automatically scan the surface of the object with the entire colour temperature spectrum from 2500K to 6500K. At any point, the CCT SCAN function can be locked and in this way you will be able to customize the light to the specific inspection task.

This provides optimum conditions for the most accurate colour match and highlighting and discovering paint defects.

Sunmatch 4 features stepless dimmer function in the range of 10% to 100%. A spotlight for inspection is also included at the top.

Additional Information

- Sturdy hook or built-in magnet for hands-free use, flexible head tilts up to 180 degrees.
- Waterproof construction (IP65) fitted with solvent resistant glass lens.
- Built-in intelligent heat protection system switches to low mode (50%) after 3 minutes.
- Battery level indicator, and light diffuser which provides a soft & diffused light with reduced reflections.
- Supplied with charging base, USB cable & diffuser, 2-10h operating time (Spot: 3h), 4h charging time, 3.7V/2600mAh Li-ion battery.
