

Scangrip Wheelstand

The Scangrip wheel stand has developed for mobile positioning of work lights in the Workshop or bodyshop. It is easy to move the light to where you need it, and at the same time you avoid uncomfortable and heavy lifting from one workplace to the other. Fast and easy positioning of the work light on the wheel stand, and when mounted the light can be tilted to provide the optimum beam angle.

Additional Information

- Extendable height from 0.9m up to 1.9m height.
- Ideal for providing illumination at low working height.
- 3 wheels for stability, 2 wheels are lockable for safety.
- Made from powder coated steel & is suitable for both indoor & outdoor use.
