

Parts Cart

Organise and protect vehicle parts during the repair process. Compact nesting design saves space.

Additional Information

- This parts cart provides 3 storage shelves and a simple bumper storage system on the back of the stand, making them ideal for any displaced vehicle parts, usually associated with the car body repair industry.
- Large panel storage, useful for bonnets, tailgates, boot lids and doors.
- Can also be collapsed down to minimize out-of-use storage footprint.
- Width: 127cm, depth: 80cm, height: 192cm.
- A versatile storage facility suitable for any workshop, large or small.
