

Paintless Dent Repair Tyre Support

A robust ABS plastic PDR bar tyre support, designed to allow leverage to be applied using the vehicle tyre as the pivot point while protecting the tyre from damage. It features a textured base, to keep the support firmly in place on the tyre, together with a curved and ribbed support to prevent the lever bar from slipping during use.

Additional Information

- Tyre support for use with PDR bars, please see Part Nos. 92265 & 92369.
- Length: 150mm; Width: 90mm. Weight: 124g.
- Manufactured from ABS plastic.
- Textured base to provide a stable grip on tyres & help avoid damage.
- Curved & ribbed support/handle to prevent slippage & avoid injury.
