

Bumper & Universal Holding Extension with Panel Stand

Combines the Power-TEC Extending Panel Stand Pro with a telescopic articulated arm, making it ideal for supporting bumpers whilst carrying out repairs.

Additional Information

- Telescopic articulated arm comes complete with extendable panel stand.
- Ideal for holding bumpers especially during plastic repair.
- Includes 6 different adjusters to achieve that perfect position.
- Articulated arm can also be purchased separately, please see Part No. 92535.
- Can also be used with panel stand 92431
