

## PDR Bridge Puller - 460mm with Aluminium Pad Puller

A short bridge-type dent puller, measuring 460mm in length with clearance between the working surface and the bottom of the beam of 120mm, with an adjustable hand-controlled knob lifter, for pulling dents from vehicle bodywork panels and doors. Allows for the panel to be kept under tension, allowing for the user to continue work reducing the dent tap down tools etc. Also features fully rotatable & adjustable feet (pull-plates), with 40° of movement.

### Additional Information

- Adjustable bridge lifter to pull dents from vehicle bodywork panels, doors & bonnets etc. Suitable for keeping the panel under tension to allow for planishing & reshaping.
- Overall length: 460mm. Height of bridge: 120mm.
- Features fully rotatable & adjustable feet (pull-plates), with 40° of movement. 1x 125mm straight pad holder. 1x spare pulling bar & M14 adaptor for attachments.
- Manufactured from aluminium & steel, with ABS plastic feet & Thermoplastic rubber (TPR) grips.
- Suitable for use with Power-TEC glue puller pads, Part No. 91557, Gluematic Glue Gun, Part No. 91237 & glue sticks, Part No. 92342. For the removal of the glue after use, please see Power-TEC Hot Melt Glue Remover, Part No. 92341.
