

Scangrip MultiMatch R Re-Chargeable Work Light

Lighting solutions for the automotive painting industry.

Scangrip Colour Match lighting solutions are specially designed for the automotive painting industry, and are made for colour matching, detailing and general paint work and are usable everywhere a painted surface needs inspection.

The COB (chip on board) LED technology provides a unique, uniform and completely even illumination with only one shadow which makes it particularly effective for detailing and colour matching light. The colour temperature (KELVIN) exactly fits the specific requirements for efficient work light in the automotive painting industry. The newly invented CCT SCAN functionality offers the option to scan the surface of an object with the various colour temperatures available in the interval from 2500K to 6500K. CCT SCAN functionality provides optimum conditions for the most accurate colour match and highlighting and discovering paint defects.

03.5658 Multimatch R

Multimatch R is a handy and powerful re-chargeable LED work light for inspection and detailing, providing up to 1,200 lumens.

The Multimatch R features a unique, stepless CCT SCAN function. By activating the CCT SCAN function, the work light will automatically scan the surface of the object with the entire colour temperature spectrum ranging from 2500K to 6500K. At any point, the CCT SCAN function can be locked, and in this way, you will be able to customize the light to the specific inspection task. It is the ultimate tool for the professional detailer, providing ideal conditions for accurate colour match and highlighting and discovering imperfections.

Easy to carry and ergonomically designed for a good grip on the handle, which is also equipped with powerful integrated magnets for flexible mounting. Highly flexible

application possibilities for internal inspection of cars and other narrow areas.

The work light is designed for direct mounting on the Scangrip Wheel Stand, Part No. 03.5682. By using the Scangrip Wheel Stand, Multimatch R can be mounted on the lower

Additional Information

- Powerful LED work light for car detailing & inspection providing 1200 lumen.
- Features CCT SCAN function reflecting the entire colour temperature spectrum from 2500K to 6500K.
- Built-in power bank with USB outlet to charge mobile devices. 50min-10h operating time, 3.5h charging time, 3.7V/5400mAh Li-ion.
- Dustproof & waterproof construction (IP67). Supplied with charger & USB cable.
- Wheel stand available separately, please see Part No. 03.5682
