

Spin Doctor

Rotating paddle blasts away heavily loaded or dried and caked on compound from foam polishing pads.

Additional Information

- Save time by cleaning the pad whilst it is on the buffer.
- Cleans both wet & dry pads. Will not damage pad surface
- Works on corrugated, flat & bevel edge foam polishing & cutting pads.
- Manufactured from steel, with a Polyurethane (PU) paddle & Nylon handle.
- Suitable for use on the Connect range of foam polishing heads.
