

Blow Jet & Air Regulator

Flat fan nozzle complete with air regulator produces an even flat jet of compressed air, ideal for spot repair or door shuts, as well as removing dust or debris.

Additional Information

- For use on spot repairs, door shuts or any job requiring control over the coating of surfaces.
- Regulator provides control over air flow pressure.
- 1/4" thread.
- Regulator available separately, please see Power-TEC Part No. 91463.
