

Miracle System Hand Puller

Body panel puller for use with the Power-TEC Miracle System. Supplied with 2 pulling shafts, the shaft is threaded through Miracle style bits before being attached to the puller and used to keep tension in the repaired panel whilst any stretches or ripples are then tapped out with a hammer.

Additional Information

- Body panel puller to be used as part of a Miracle System repair.
- Useful whilst finishing a repair. Allows for the panel to be tensioned by hand, whilst stretches & ripples are tapped out with a hammer.
- Supplied with 2 x pulling shafts.
- For use with Miracle style bits, please see Part No. 91687 (straight), 92139 (twisted).
- Part of the Miracle System Platinum Kit, Part No. 92168.
