

Alumax Short Cycle Aluminium Welder

For short cycle stud welding this 16A Aluminium welder fixes Miracle style washers and pull pins to panels in preparation for dent removal.

Additional Information

- Short cycle aluminium welder 16amp, with localised earth.
- Fixes Miracle Alumi bits & Alumax Special Pull Pins.
- Uses the integrated puller to ease out dents using special welding pins. Also pulls collars or loops that are attached to studs.
- Prepares the panel ready for the appropriate Miracle tool to be used to lift out the dent.
- For use with: Alumax Special Pull Pins, please see Part No. 92509 & Miracle Special Alumi Bits, Part No. 92153.
