

Bodywork 'Bumping' Mallet

Bodywork rubber mallet also known as a bumping mallet, ideal for working on weatherstrips, bumpers or trim in bodyshops. Non-marring NBR rubber mallet with large flat contact area to spread the shock loading.

Additional Information

- Mallet head made special rubber filler that is elastic in nature but hard in use.
- NBR rubber material helps to avoid damage or scratching (non marring) when working on bumpers, panels & other car bodywork or trim.
- Ideal for pushing in & fixing vehicle door weatherstrips, bumpers or trim, or for fitting upholstery & trims to vehicle seats.
- Length: 260mm. Weight: 654g.
- Soft grip flexible handle. Spare head available, please see Power-TEC Part No. 91053.
