

Twist & Lock Block Sander

This sanding block features a quick change function allowing for the wet and dry paper to be changed and locked in place with ease thanks to its twist and lock grip. Manufactured from durable ABS, it has an ergonomic comfort grip handle which allows for even pressure distribution during use. It uses any abrasive paper cut to 175 x 71mm, which allows for four pieces to be cut from a standard sized sheet. Simply twist the grip to release, insert abrasive paper and twist back to lock.

Additional Information

- Fast quick change function - simply twist the grip to release, insert abrasive paper & twist back to lock.
- Size: 114 x 71mm. Cut any abrasive paper to fit.
- Contoured grip allows even pressure distribution.
- Manufactured from durable, rigid ABS material, with ergonomic comfort grip handle.
- Ideal where an even pressure over the full working area is required.
