

Magnetic & Spot Combi Earth

This magnetic clamp can be used to hold the spot earth tightly against the bodywork panel or metal work being welded, helping to keep it in place for the duration of the repair, ensuring that it remains securely earthed.

Additional Information

- Spot earth incorporating a magnetic clamp.
- Fix to your existing panel repair system.
- Ideal for use with Evo Miracle Welder, Part No. 91743 & Combi-Star Welder, Part No. 92510.
- Sand off small area, using welder gun as earth, weld point of Spot Earth to panel.
- Replacement copper screw available, please see Part No. 91849.
