

Electro Power Push Pull System - 5 Tonne

Electro-power pulling and pushing system for fast and accurate repairs. The electro-power battery system can deliver up to 5 tonnes of force in both directions. The lack of external cabling or hydraulic pumps and pipes makes this system ideal for use in restricted spaces.

Additional Information

- Patented battery powered, hand held mechanical ram system.
- Delivers up to 5 tonnes of force in both directions with 130mm of ram movement.
- Ideal for straightening & re-aligning vehicle aperture frames, body panels & dent pulling.
- Kit includes battery powered ram, 1 x Li-ion 14.4V 2.0Ah Battery, battery charger, 6 x extension tubes & bars, 7 assorted push pull attachments including 1 chain lock attachment.
- Ideal for use with Power-Tec Part No. 92767 pulling tower. For additional accessories kit see Power-Tec Part No. 92692.
